

Key steps in AS/EN 9100

certification process are:

- **Optional:** Pre-audit - Definition of certification scope, gap analysis and diagnosis of your current position against standard requirement
- **Certification process & Audits :**
 - » Stage 1 – Readiness review
 - » Stage 2 – Evaluation of implementation A certificate valid for 3 years is issued upon satisfactory results of stage 2 audit
 - » Surveillance: 2 audits on a yearly basis performed to verify that the management system still fulfilling IAQG Standard requirements
 - » Recertification: 3 years after Stage2 audit, recertification audit will confirm the continued conformance and effectiveness of the management system as a whole management system as a whole

Note: After publication of new standard in 2016, IAQG re-published in 2018 amended version with precision related to OASIS tool evolution. You may find AS/EN 9100:2018 publications as well as 2016 versions. Both standard documents are strictly same for what regards QMS requirements to satisfy.

FAQ

1/ Why should my organization implement AS/EN 9100?

To demonstrate your products, services and your management system meet requirements AS/EN 9100 standard that reflects Aerospace Stakeholders expectations on the supply chain.

2/ Does AS/EN 9100 certification bring me any commercial advantage?

Yes, as most of the Aircraft manufacturers and OEMs in Aerospace industry contract only with suppliers that are certified against AS/EN 9100 Standard. To be able to supply to the biggest ones, AS/EN 9100 is definitively a plus in this competition.
